

1-2-3 TREE™

1-2-3 TREE™ contains dense populations of Endo and Ecto Mychorrhizae with Mycorrhizae Helper Bacteria (MBH) combined with a rich ferment of nutrients from Kelp, Fish, Humate and Molasses, perfect for transplanting trees and shrubs, just add it to water and apply before backfilling or apply to existing mature landscapes to increase the long term health of perennials, shrubs and trees. Benefits include: Increased soil fungal mass, translocation of soil nutrients via Mycorrhizae to the plant, increased transplant success, no phosphorous mix supports native mycorrhizae, working sets of MBH and fungi, increases long term health, virtually no transplant shock.

1-2-3 TREE™ is USDA National Organic Program Compliant.

Directions:

Mix 1 ounce of 1-2-3 TREE with 2 gallons of de-chlorinated water.

Apply to soil or inject at a minimum 1 gallon of mix per caliper inch or foot of shrub.
Use mixed product within 24 hours.

Contains Non-Plant Food Ingredients:

Bacillus subtilis.....	1.4×10^6 CFU's per ml/cc
Bacillus licheniformis.....	9.1×10^7 CFU's per ml/cc
Bacillus polymyxa.....	4.7×10^4 CFU's per ml/cc
Bacillus azotoformans.....	4.4×10^5 CFU's per ml/cc
Glomus aggregatum.....	3.5×10 propagules per ml/cc
Glomus clarum.....	3.5×10 propagules per ml/cc
Glomus deserticola.....	3.5×10 propagules per ml/cc
Glomus intraradices.....	3.5×10 propagules per ml/cc
Glomus monosporus.....	3.5×10 propagules per ml/cc
Glomus mosseae.....	3.5×10 propagules per ml/cc
Glomus margarita.....	3.3×10 propagules per ml/cc
Paraglomus brasiliianum	3.3×10 propagules per ml/cc
Trichoderma harzianum	5.2×10^5 CFU's per ml/cc
Trichoderma viride.....	5.2×10^5 CFU's per ml/cc
Pisolithus tinctorius.....	2.5×10^5 CFU's per ml/cc
Rhizopogon.....	5.0×10^4 CFU's per ml/cc

This product contains NO animal manures or municipal offal. It is pathogen free and non-phyto toxic. Information regarding the contents and levels of metals in this product is available on the internet at: <http://www.aapfco.org/metals.htm>

STORAGE & DISPOSAL Store in original container in a dry cool place, inaccessible to children and pets. Avoid exposure to extreme temperatures. In case of spill or leakage, soak up with absorbent material and dispose of with trash in a sanitary landfill.
