Contents: 2½ gallons (9.46 liters)
Net Weight: 22.25 lbs. (10.09 kg)

Nature's Essence FH 2-3-1 is a liquid hydrolysate of fresh North Atlantic Fish. **Nature's Essence FH 2-3-1** is a valuable tool in a well-balanced nutrition program for crops.

Nature's Essence FH 2-3-1 is compatible with most other liquid materials. To be safe, an initial jar test is always recommended when mixing **Nature's Essence FH 2-3-1** with companion materials for the first time.

Nature's Essence FH 2-3-1 is a natural product. It should be stored in a cool, dry location out of direct sunlight. Dilute only as much concentrate as needed for each use. The oils in fish hydrolysate will naturally separate from the solids over time. Always stir, shake, or agitate the container prior to each use.

Nature's Essence FH 2-3-1 is 100% water-soluble and is suitable for conventional liquid foliar and irrigation water applications.

THE FISH OILS WILL SEPARATE FROM THE SOLIDS OVER TIME. ALWAYS SHAKE OR STIR THOROUGHLY BEFORE USE.

Description For Use:

Nature's Essence FH 2-3-1 may be applied by itself or as an additive with most companion materials. It should be used between 1 and 3 ounces per gallon of water for ornamentals and crops and up to 8 ounces per gallon of water for turf. For severely stressed plants or if the use of fish is not started until later in the season, initial applications may be made at higher concentrations as long as significant heat and drought stress are not present at the time. When applying fish on newly transplanted crops or plants of any kind (foliar, soil drenching, or any other application method) do not exceed a fish concentration of 1% in water (1.28 liquid ounces of fish per gallon of water). For general maintenance applications use 1 ounce per gallon of water and spray until run-off. Applications may be made every 2 to 4 weeks. As a general guide we recommend the following:

Spring:

Ornamentals: apply 2 oz per gallon of water once per month
Veggie Crops: apply 2 oz per gallon of water twice per month
Turf and Fairways: apply 1-3 gallons per acre twice per month
Greens and Tees: apply 3-6 oz. per 1,000 square feet weekly

Summer:

Ornamentals: apply 0.5 oz per gallon of water once per month
Veggie Crops: apply 1.5 oz per gallon of water twice per month
Turf and Fairways: apply 1-2 gallons per acre twice per month
Greens and Tees: apply 3-6 oz. per 1,000 square feet weekly

Fall:

Ornamentals: apply 3.0 oz per gallon of water once per month
Veggie Crops: apply 3.0 oz per gallon of water once per month
Turf and Fairways: apply 2-3 gallons per acre twice per month
Greens and Tees: apply 4-8 oz. per 1,000 square feet weekly.

Keep out of the reach of children
